

Mundi

Mundi stands out as a novel concept defined by a compelling visual identity. Thanks to a large choice of distinctive worktops, leg profiles and finishes, this highly customisable furniture range engages the end user in the design of a singular and inspiring office space.

"One can't help but be completely seduced by Mundi's refined use of wood veneers and the appeal of its presence in the workspace."

CLAUDE ARMAND Director of Industrial Operations

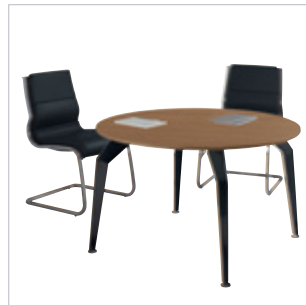

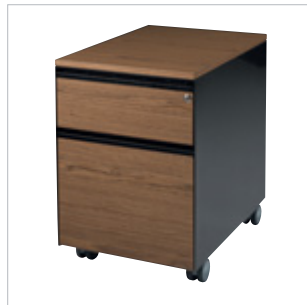

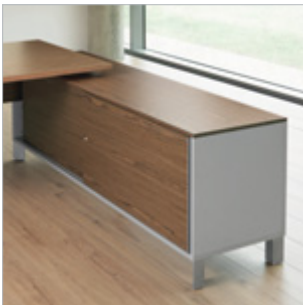

The importance of leading by example

Discreet cable management solutions afforded by the sleek steel panel leg design

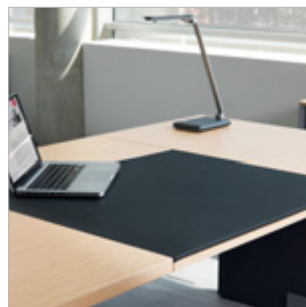

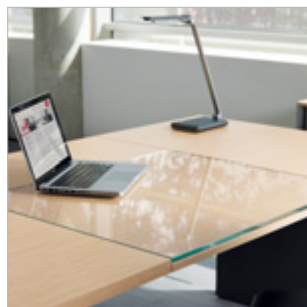

MUNDI, where **aesthetic styling** and **functional elegance** converge to meet user needs

Customise your worktop to suit your image with desk mats available in various materials. Choose between the **warmth** afforded by wood, the **modern touch** of glass or the **inspirational grandeur** of leather.

Standards

Technical specifications

Particle board panels with density 670 to 690 kg/m³ overlaid with a sheet of decorative wood veneer, 7/10 thick natural aspect veneer coated with semi-matt water based varnish.

Tops 17.4 mm thick – Desk height: 72.74 cm.

Tops 31.4 mm thick – Desk height: 74.14 cm.

Tops 12 mm thick – Desk height: 72.2 cm.

1 Wood veneer tops 17.4 mm in thickness. Desk top with wood veneer edging, rounded at the top and bottom and matching the worktop decorative finish.

2 Wood veneer tops 31.4 mm thick, with customisable central section. Desk top with straight wood veneer edging, rounded at the top and bottom, matching the worktop decorative finish

- Wood veneer top

- Wood veneer top with integrated leather insert (desk mat)

- Wood veneer top with integrated clear glass insert (desk mat)

3 Toughened safety glass top 12 mm thick. Smoothed joins and rounded edges for maximum user comfort. 3 choices of finish : clear glass with enamelled underside, frosted clear glass, tinted glass.

4 Wood veneer panel legs 61.4 mm thick, with wood veneer edging with rounded edges. A triangular section metal element (1.5 mm thick) adorns the lower portion of the panel leg. The desk leg panels are raised off the floor by means of levelling glides fitted with 2 stabilizer feet \varnothing 25 mm, adjustable in height through 15 mm. Levelling glide depth: 100 or 60 cm.

5 Metal panel leg 9.3 cm thick. A removable metal cover on the external façade of the leg allows access to the cable management housing concealed within the leg structure. Legs rest on 4 hexagonal stabilizer feet \varnothing 50 mm, adjustable through 15 mm. Panel leg depth: 75.6 or 60.6 cm. Metal crossbars in an aluminium grey finish.

6 The wood veneer panel leg structure is composed of 2 triangular section 2 mm thick crossbars and a structural modesty panel, all presented in a wood veneer finish. The whole is held together by means of cam fittings and screws with metal inserts. In the glazed desk version, the glass top rests on suction pads.

7 Optional metal modesty panel 0.7 mm thick, matching the finish of the metal panel leg. Attaches to the metal crossbars on the underside of the worktop. Dim.: H. 30 x W.110 cm.

8 | 9 Supporting return composed of a melamine shell and a choice of melamine or wood veneer structural top. The unit is divided into 3 compartments separated by 2 internal partitions. Two of the compartments include an adjustable shelf. The metal sliding doors are assorted to the legs, metal panels or wood veneer doors. The height-adjustable doors rest on a runner allowing the panel to slide smoothly along a profiled aluminium rail. Each sliding door is fitted with an end-of-run damping mechanism. The unit sits on 5 triangular section metal legs, fitted with stabilizer feet.

10 Cupboard drop leaf door and shell made from 19 mm thick melamine. Doors and decorative top made from 17.4 mm wood veneer matching the tops. Melamine shelves and ABS edging in a matching finish. Wood veneer doors open by means of "Push&Pull" system (no handles). Central compartment fitted with drop leaf door, handle fitted flush along the length of the door top (profiled aluminium channel). Wood grain aligned horizontally along the width of the door. Adjustable stabilizer feet.
