Office furniture

INTRODUCTION

Qudos is one of our executive furniture ranges and was launched in October 2002. The range incorporates cantilever desking, pedestals, storage and accessories. Designed with style in mind, Qudos offers total practicality to any office environment. We further enhanced this successful range by adding more products for more flexibility focusing on 600mm deep desking options. This is due to the demand for more compact office environments by fitting more people into a specific office space.

Qudos as standard incorporates stylish fully cable managed cantilever legs and is available with five optional modesty panels. Now available in 3 trim finishes, Black, White and Silver and 15 MFC board colours. All products are manufactured using 18 and 25mm thick MFC. All tops including desking, tables, pedestals and storage units incorporate 2mm PVC Heavy Duty edging tape.

Segment workstations with personal lockers offer an effective space saving solution.

Refreshing and creative shapes provide a positive feel, accompanied by vivid wave screens stimulate an optimistic environment.

Designed for larger office configurations, 'classik' conference radial workstations provide additional working area and create space for informal one to one meetings.

Traditional four desk radial clusters remain the most popular of all desking configurations. Triple tool bar screens offer personal space whilst maintaining efficient filing with screen hung accessories.

Qudos offers practicality as well as variety from departmental configurations through to conference managerial footprints. Qudos modesty panels promote a distinctive touch with numerous variations available.

Qudos offers total functionality to the modern office environment. Cable management is incorporated as standard, allowing efficient access to power and data.

Radial end tambour storage units create stylish storage solutions and provide additional working space.

Desk top areas can be used to maximise space with various Qudos products. Utilising conference extensions and links for group meetings are possible as illustrated.

Boardroom tables are available with rectangular, D-ended, or circular tops.

Qudos ECS units are ideal for smaller offices. Available in depths of 600mm and 800mm carrying integrated pedestals. These units are best suited to travel or estate agents where one to one meetings are common place.

The Qudos kidney reception desk is the perfect solution for today's modern reception environment. Compact and curvaceous yet surprisingly versatile, especially with the addition of the conference extension link as illustrated.

Qudos desking is available with a choice of 2 modesty panels

Straight Modesty Panel

Concave Modesty Panel

A selection of storage units have been designed to compliment the Qudos range and are available with a 25mm top and 18mm solid back as standard. Filing cabinets are manufactured as 2, 3 and 4 drawer variations. Storage cupboards are available with side

opening tambour doors, lockable hinged doors or in a basic open format. All units accommodate various shelving accessories to offer total functionality and efficient storage solutions.
